

OCT 17 1957

Mr. Carlton C. Massey
County Executive
Fairfax, Virginia

Dear Mr. Massey:

STATINTL [REDACTED] has advised me of his discussion with you at the time he delivered my October 15, 1957, letter and that the Board of Supervisors will meet on October 30, 1957, to consider action in connection with the county's sewage disposal facility which will serve our headquarters building.

Prior to the Board meeting, I wish to confirm [REDACTED] statement to you that our current construction plans and estimates provide only for a gravity connection to the county's sewer system. These plans and estimates have been developed on the basis of the following:

1. May 18, 1955, Resolution of the Board of County Supervisors of Fairfax County which states that "the county can assure within two years from this date the availability of sewers for the facility contemplated on a basis of charges or rentals for each sewer service at figures which will not exceed the regular charges elsewhere in the County."

2. Your testimony and prepared statement to the Subcommittee of the Senate Appropriations Committee on July 15, 1955, to the effect that "this board of county supervisors assures that within 2 years the county would make available sewage disposal facilities to the proposed site at Langley with no part of the initial cost to be borne by the Federal Government and subject to the customary connections charges and quarterly service charges as have been or may be established for similar service in the County."

Document No. 011	No Change in Class. <input checked="" type="checkbox"/>	Class. Changed to: T3 S C	Next Review Date: 13/12/78	Auth: R3 70-3	Date: 13/12/78	By: [Signature]
<input type="checkbox"/> Declassified						

3. September 12, 1956, Board of County Supervisors reaffirmation of its previous commitment to the effect it will provide suitable sewage disposal facilities for the Central Intelligence Agency headquarters building at Langley by the time this building is ready for occupancy, the use of which disposal facilities by the Central Intelligence Agency is to be subject to the same regulations, provisions and charges as are or may be applicable to other similar sewer service furnished by the County of Fairfax.

As you know, before we received Congressional approval for our construction appropriation, we were required to satisfy the Congressional Conference Committee that no Federal funds would be used to provide sewage disposal and certain other utilities. Since we believed that the formal resolutions and your testimony constituted a firm commitment on the part of Fairfax County, we have proceeded on the basis that complete sewage facilities would be provided at no cost to the Federal Government.

It is requested that our understanding of Fairfax County's responsibility in this matter be made known to the Board of Supervisors prior to final action by them.

Sincerely,

SIGNED

L. H. White
Deputy Director
